Devember 5 Security 2024 Kickoff Two co-located events by Lynx People & Computers

6 March 2024 Tel Auiu Stock Exchange

INDUSTRY-LEADING SPONSORS Google Cloud

THE CONSORTIUM

MEET YOUR COMMUNITY, EXPAND YOUR NETWORK, ELEVATE YOUR SKILLS

08:00 CHECK IN, BREAKFAST & MINGLING MC: Yoel Israel, Founder & CEO, WadiDigital Welcome to Lynx DevCon & Security Summit 2024 Kickoff 09:00

Ben Pelled, Amir Karlin, Ido Faragi, Raz Sabro, Lynx by People & Computers

Innovate with Gemini: AI Breakthroughs for Developers Explore groundbreaking advancements designed to empower developers! Yonit Gruber-Hazani, Cloud Architect, Google Cloud

What's Shaping the Future of Cyber Risk Management: Lessons from the Past Sidney Gottesman, CEO, FinSec Innovation Lab - Startup Accelerator by Mastercard

The Impact of SOC 2 and ISO 27001 on R&D: The CTO's Roadmap to Compliance in 2024 Meiran Galis, Founder & CEO, Scytale AI

From Crisis to Success: Fueling Innovation, R& D for Transformative Outcomes Hagay Daniel Riskin, CEO, The Consortium H.D.

Panel Discussion: Demystifying AI in Software Development & Security: Friend or Foe?

AI is transforming software, posing critical questions for developers and security pros: Will AI amplify their skills, or make them obsolete by automating jobs? AI's impact is tangible, automating tasks, analyzing data, and coding. These advancements promise efficiency and innovation but spark concerns about the future. Join us in this fascinating panel discussion as we tackle the hottest topic these days!

Moderator: David Shoham Sachs, Head of Growth, Crave.io

- Dr. Limor Lahiani, CTO & VP RnD Advisor
- Amit Bendor, Director, Head of AI & Data Science, Artlist | Podcaster
- Yousef Isaac, Business Lead, Cybersecurity & AI, Google Cloud
- H3rnan Arber, AI Product Strategy Lead, UserWay
- Hagay Daniel Riskin, CEO, The Consortium H.D.

Accessibility: Better Safe than Sorry 11:00 Prioritizing inclusivity in design for equitable digital experiences Sophia Tupolev-Luz, VP of Communications, UserWay Natural Language Coding: Just Around the Corner or Still a Distant Dream? 11:15 Coding is becoming more accessible to the average person - the implications are huge! Jonathan Harel, Co-Founder, Fine | Content Creator Dark Mode IL

Hunting in the Shadows: Unveiling the Art and Science of Advanced Threat Detection Dive into the world of elite threat hunters δ learn cutting-edge detection techniques Miri Levy, Senior Software Designer, Guardium, IBM

Panel > Collaboration is Key: Breaking Down Silos to Build a Unified Security Front

Effective security requires cross-functional collaboration. This panel will bring together experts from diverse fields - IT, HR, legal, and even marketing - to explore strategies for breaking down communication silos, fostering a culture of shared responsibility, and achieving holistic security across all levels of an organization.

- Annie Degani, Director of Business Development, FinSec Innovation Lab
- Ronen Amity, CTO, Cloudride
- Meir Abergel, Co-Founder & CEO, CYNC
- Eden Guelmann, Cyber Security Solutions Manager, Visual D.G.
- Mike Admon, CEO, Stealth Mode Startup
- Dean Langsam, Senior Data Scientist, SentinelOne
- Shiran Kleiderman, Co-founder & CEO, Xplorisk

With the rise of multi-cloud and hybrid environments, securing data and applications has become increasingly complex. This panel discussion will dive into strategies for managing security across diverse cloud platforms, building trust and collaboration between developers and security teams, and navigating the ever-evolving threat landscape.

- Ruth Polachek, CEO & Founder, she codes; | CEO & Co-Founder, LessTests
- Eli Kaplan, Head of Security and Compliance, GCC EMEA, Google Cloud
- Yohan Bensoussan, AI Architect, watsonx, IBM
- Moran Baruch, ML Research Scientist, IBM Research

- Coffee bar
- Professional LinkedIn Photo booth!
- Even more surprises!
